10:00 Melody Circle

11:00 Piano Tunes

1:15 1:1 sessions

**If you would like to visit with an individual who is already in a program, please let music therapy staff know and we will find a comfortable space for you both to chat.** This will allow the individual to attend to you better and ensure that *our other residents can focus on the music therapy experience without additional distractions.*

**If you need to treat/work with an individual who is in a music therapy session, if possible, please allow your person to finish the therapy session.** The music therapy staff will be glad to transport the resident to you as soon as their interventions have finished.

## Questions?

Please see Terri Kasprzak MT-BC, LCAT with any questions.
